Brownell's Cooking Range.
THE subscriber has just completed the invention of a new Cooking Range, to which he invites the attention of the public. This Range possesses qualities for expeditious boiling and cooking that other Ranges do not, and it occupies but a small space of room.

Brownell's Cooking Range has six eight inch boilers, any two, or four of which, can be thrown into one, so as to admit of a large boiler; and it is provided with a set of rings so that any sized furniture can be used on it. Its Oven is large, convenient of access, and having an upward draft, it bakes evenly with a small quantity of fuel.

One of these Ranges is in successful operation at the store of the subscriber, subject to the examination of the public, who are invited to call and take a look at it. WILLIAM BROWNELL.

TO THE BEAUTIFIERS OF THE COMPLEXION.

SURPRISING EFFICACY. My Eau Divine, Eau Venus and Nymph Soap, composed of an eastern botanical discovery of surprising efficacy for rendering the skin soft and fair, as well as imparting a delicate roseate hue to the complexion. As a creator and conservator of that most distinguishing charm of female loveliness, a transparent fair skin, Jules Havel's Nymph Soap, or Eau Divine de Venus, may be said to exert an almost magical influence. Composed for the most part of aromatic balsamic plants, to the utter exclusion of all mineral admixture, it is distinguished medically, for its extremely bland, purifying and soothing action on the skin; and by acting on the pores and minute secretory vessels, expels all impurities from the surface, allays every tendency to inflammation, and, by this method alone, effectually dissipates all redness, tan, pimples, freckles, sunburn, and other unsightly cutaneous visitations, so inimical to female loveliness. Its use will change a most bilious complexion into one of radiant whiteness; while on the neck, hands, and arms, it bestows a delicacy and fairness which its continued use will happily protect, with every appearance of youthful charm to the most advanced period of life.

CLOTHING! A GREAT ATTRACTIONS

OREGON CLOTHING WARE-HOUSE!!!
Corner of Thames & Franklin Streets.
Fashion, Economy, and Gentility United!!

CLOTHING for thousands now opening at that Great and Popular Clothing Establishment, so well known to all as being the Emporium of Fashion and Low Prices.

We are now preparing for the Spring Campaign, having just received from Boston and New York the largest and most splendid assortment of fashionable SPRING CLOTHING ever offered in this town, having been selected from the largest and most fashionable Clothing Houses in the country; and, considering they were bought on the cash system, and at exceedingly low prices, we think we can afford to sell a little cheaper than any other similar establishment in the State, without exception. Among them may be found English, French, and German Cloths.

Frock and Dress Coats.
They seem forever fresh and bright, And give the wearer great delight; Cut, pressed, and made in tasty manner— They win the envy of the scanner; While hundreds who have purchased them Proclaim aloud—"A gem," "a gem."

Pantaloon.
In this department we surrender To no one, of any gender; Broadcloths, Doeskins, and Cassimers, More kinds than we can tell you here. There's not a form, however poor, To which they can't impart a cure; The matchless skill in yielding shears, Plainly in pantaloons appears; To walk, Sirs, in our pantaloons, Is one of fashion's sweetest boons.

Vests.
A Vest is a most important feature Upon the breast of any creature, And should, at least, be neat and clean, If you're expecting to be seen, To aid mankind in such a course, We have on shelves and in our drawers A large assortment, of the best— Hereafter none should lack a Vest.

Hats and Caps.
Of the latest styles, and at our usual low prices, Seamen's Clothing.

Of every description, Oil Jackets and Pants, Reefing Jackets, Flannel Shirts and Drawers, Gurnsey Frocks, Tar Hats, &c., &c. A Fine Set of Teeth for 25 cts.
YELLOW and unhealthy teeth, after being once or twice cleansed with JONES' AMBER TOOTH PASTE, have the appearance of the most beautiful ivory, and, at the same time, it is so perfectly innocent and exquisitely fine, that its constant daily use is highly advantageous, even to those teeth that are in a good condition, giving them a beautiful polish, and preventing a premature decay. Those already decayed it prevents from becoming worse—it also fastens such as are becoming loose, and by perseverance it will render the loosest teeth delicately white, and make the breath delicately sweet.

Price 25 or 37 1/2 cents a box.

MONTEREY.
Ponés toi Brave Crillon! Nous avons combattu, et tu n'y étois pas.
Lettre de Henri IV a Crillon.

We were not many—who who stood Before the iron sheet that day— Yet many a gallant spirit would Give half his years if he but could Have been with us at Monterey.

Now here, now there, the shot, it hailed In deadly drifts of fiery spray, Yet not a single soldier quailed, When wounded comrades round them wailed Their dying shout at Monterey.

And on—still on our column kept Through walls of flame its withering way; Where fell the dead, the living slept, Still charging on the guns which swept The slippery streets of Monterey.

The foe himself recoiled aghast, When, striking where he strongest lay, We swooped his flanking batteries past, And braving full their murderous blast, Stormed home the towers of Monterey.

Our banners on those turrets wave, And there our evening bugles play; Where orange boughs above their grave Keep green the memory of the brave, Who fought and fell at Monterey.

We are not many—who who pressed Beside the brave who fell that day; But who of us has not confessed He'd rather share their warrior rest, Than not have been at Monterey?

PENCIL SKETCHES OF TRAVEL.
LETTER XXVIII.

CHICAGO, Illinois, July 6th, 1847.

MY DEAR SIR:—

Chicago has been known for the last hundred years as an Indian trading port; and there is a trail across the prairies of Illinois and Wisconsin to Milwaukee, which was another trading port, which is still to be seen. Chicago stands at the head of Lake Michigan, and at the mouth of a small river that runs some ten or twelve miles into the prairie; the Indians called the place *Chicago*, and it is its present pronunciation.

It is only twelve years ago since the place first began to be settled; I saw a man to-day who told me that he built the first house here thirteen years ago, and pointed it out to me. It is only fourteen years ago that the terrible massacre took place here of the white traders by the Indians, led on by that model warrior Black Hawk; the remains of the old fort on the river are still standing. They consist of several log-houses, with the flag-staff in the centre; the whole was originally surrounded by a stockade fence; it was in this fort that the massacre took place.

Chicago now numbers about sixteen thousand inhabitants, and is rapidly increasing; it is regularly laid out with much neatness, the streets intersecting each other at right angles. The streets are all wide, and many of the residences are very beautiful, surrounded with trees and flowers, and inviting the traveller to settle in this flourishing city of the far west. At certain seasons of the year the streets are very muddy and almost impassable; this is in consequence of the land being so low on the flat prairie, but slightly elevated from the Lake; all the side-walks are made of plank, which looks singular to one who has never seen them before,—but I have become quite accustomed to them, having walked upon them so much, during the last two weeks in Wisconsin.

All id activity and energy here, and from the stirring in the streets, particularly in the neighborhood of the piers and around the ware-houses, you are convinced that an immense business is carried on; no one is idle, and none need be poor. But there are the same objections to be urged as in regard to Wisconsin, relative to the unsettled character of the people, as a general thing, although it is daily improving. The same old monster reigns here as in Wisconsin, only his dominion is broader and more powerful. I presume that Illinois is the most genuine fever and ague spot in this country. It was once remarked of them, at the time the State was on the eve of bankruptcy, in consequence of the difficulty of raising money

to complete their canal, that the reason, the State did not pay her debts was, that her citizens had suffered so severely and so long with the fever and ague, that they had shaken all ideas of honesty and moral obligation out of them.

There is hardly a person here who has not had the disease, or is still suffering with it, and you can see them standing in the sun, at all hours of the day, shivering as a man would on a cold December morning, with the thermometer at 10 below zero.

There is not a bank in the State, and all business is transacted with the bills of other States; New England bank bills pass here as readily as gold, and the people prefer them. It is strange that the people do not open their eyes, and have their banks, entrusted to proper persons, established throughout the State, and thus reap the benefit of exchange and circulation which is now denied by other States.

There are several churches and a large number of hotels in the city, the largest of which is the Sherman House, which is nearly as large as the Astor, in New York, and is well kept. The court house is a small mean affair, but will probably be replaced by a fine building in the course of a few years. A theatre has just been erected, and is doing a great business. People at the extreme west bestow their patronage much more liberally upon such places of amusement, than upon churches, seminaries, and other institutions which are calculated to enlighten and benefit mankind; they live for the present, and let the future take care of itself, regarding their intellectual capacities as of but secondary consideration. People emphatically live while the day lasts; they live faster and more in five years than we do in New England in twenty—but, without being charged with egotism, I must be permitted to say that they certainly cannot be proud of the result, in their maturer years, when time is rapidly merging in eternity, while their friends for the grave—We have at the east, but here at the west they only stay.

To-morrow I commence a tedious journey over the great prairies to the Illinois river; the thermometer is at 103, and you can fancy what my comfort will be.

Yours always, F. MARKS.

Highly Important to Persons using Spectacles.

THIS simple but very useful optical instrument becomes in the hands of a scientific Optician, the means of not only giving clear vision to a defective eye, but also to improve and preserve the same to the oldest possible age, by a proper application of its glasses. A fine flint glass, free of flaws, should always be applied with such a degree of convexity or concavity, precisely as the defect of vision requires, not more, nor less, or else the result will be a faster decline of vision, and by the accommodation of the eye to an improper focus, will finally terminate in a total inability of reading, writing or sewing, in the prime of life. Persons not acquainted with optical principles, should never select spectacles without the advice of a skillful Optician, as the eye, this great masterpiece of divine mechanism, is a delicate organ, requiring their greatest attention.

The subscriber has taken a room in Vose's Washington House, at the head of Beach road, where he may be consulted for a short time. All persons desirous of obtaining superior glasses, fitted exactly to their eyes upon the first examination, will do well to call. His selection of Spectacles and Eye-glasses is very large, and his mode of applying glasses to suit the eye, will convince the visitor at once that he has trusted his most valuable organ into those hands to whom the same of right belongs.

He also recommends his Terrestrial Telescopes, which are achromatic, as first-rate instruments. The opportunity offered by the subscriber is rare, and it is hoped will be embraced by the citizens and the visitors of this place, at once.

THE DAILY NEWS.

Newport:

WEDNESDAY, AUGUST 4, 1847.

BY O. E. JACKSON, 97-THAMES ST.

THE MEXICAN NEWS.—The N. O. Commercial Bulletin, of 24th July, says "The further details by the New Orleans, confirm our previous belief, that there was no prospect of peace, and that the report of the appointment of commissioners by the Mexican government is unfounded."

The Picayune of the 24th thinks that in some form or through some agency negotiations are pending for peace—more or less open of avowed; but of the success of any negotiations it has very faint hopes.

A writer in the Edinburgh New Philosophical Journal, speaking of the nature, longevity, and size of trees, remarks—

In Britain there are still extant and growing Oaks; and probably Elms, which were planted before the Conquest: i. e. more than eight hundred years ago. And there are Yew trees, much older still. There are some at Fountain Abbey, near Ribon, in Yorkshire, which are believed to be more than 1,200 years old; two in the churchyard of Crowhurst, in Surrey, of 1,450 years; one at Fortingall, in Perthshire, of from 2,500 to 2,600 years old; one in Drabourne churchyard, in Kent, is said to have attained the age of 3,000 years; and another at Hedsor, Bucks county, which is in full vigor, and measures twenty-seven feet in diameter, appears to be upward of 3,200 years old.

THE UNION MAGAZINE.—The second number of this new Magazine, that for August, is already published, and if there is any preference between this and the preceding number, it is in favor of the number before us. It is but a day or two since we spoke of this Magazine, and of the great demand for it, and it is not strange at all that a pressing demand should be made for it, for the people know how to appreciate the merits of a deserving work. The August number contains, besides much valuable reading, several steel and wood engravings. The one in mezzotint, "taking the advantage," is after a very pretty design, and we can almost imagine we hear a concussion as the young man presses his lips against the lace of the Union Magazine is published by Israel Post, 140 Nassau street, New York, at \$3 per annum.

ARRIVAL OF THE HIBERNIA.—The steamship Hibernia arrived at Boston at about half past 9 o'clock on Monday morning, having sailed from Liverpool on the 20th ult., and consequently brings five days later intelligence than the Washington. She reports a slight decline in breadstuffs, and that cotton is the same as reported by the Washington. American flour was selling in Liverpool at 31 and 35 shillings, a decline of 2s since the sailing of the Washington. No other news of importance.

The Ladies Album, published at Boston by Cochran, Cole & Co., is a very neat little monthly Magazine, and published at so low a price that every one can afford to take it, it being but one dollar per annum. Each number contains either a colored or a steel engraving.

POST OFFICE THIEVES.—The N. Y. Herald's Washington letter reports the arrest of Wm. T. Jones, a clerk in the Washington post office, upon evidence that amounts to proof of his theft of the contents of a letter put in the mail as a trap. The marked money was found in his pocket. He is the son of Dr. Jones, former postmaster of that city, and is held under \$5000 bonds. Mrs. A. Stickelman has also been arrested in Deerfield, Va., and bills found upon her identified as stolen from the mails.

CATHOLICS IN THE UNITED STATES.—The Catholic Almanac for 1847 says that the number of priests in the United States is about eight hundred and thirty-four, being an accession of ninety-eight in one year, and also that there are 812 churches, 72 of which were erected during the past year. In addition to this number there are 677 stations visited by clergymen, but as yet without any commodious place of worship.

Mr. McQueen stated in evidence before a committee of the House of Commons last month, that in the course of the last 25 years, England has paid, for cotton alone, to the United States 268,000,000 sterling or \$1,340,000,000.

"CITY" ITEMS.

We learn from a Nantucket paper that the steamer Massachusetts, which plies between that place and New Bedford, will make an excursion to New York, leaving Nantucket on Monday next, stopping here on her way over night, and starting for New York at 6 o'clock on Tuesday morning. She will arrive here about half past 6 Monday evening. All this she advertises to do providing it should be pleasant.

There is no excuse for a man having the blues in Newport at this time, for our town is so full of life and gaiety, that if a man will but look around himself and listen for one moment to the merry peals of laughter, as they break upon the air, and gaze upon the many smiling countenances we say he must have a heart as hard as an adamant rock, if he cannot enter into some of the many amusements which are being participated in by the thousand who throng Newport at this season of the year. Just let him go down to the beach in the morning between the hours of 10 and 12, and take a seat on the piazza on the east side of Ocean Cottage, and gaze on the hundreds of ladies and gentlemen, dressed in all the fantastic styles that imagination could picture, sattered over the beach as thick as bees around a hive, riding the waves as they roll up, and apparently as much at home in the water and as little concerned as though they were in their natural element. This is a grand sight, and he that can gaze on it with indifference and without any apparent emotion, is too far gone for us to prescribe for him.

The anniversary of the emancipation of slavery in the British West Indies was celebrated at Masonic Hall last evening by the colored people of this town. The hall was as full as it could well be, and all conducted themselves with decorum and propriety. After a prayer and an address, the tables were spread with cakes, ice-creams, nuts, &c., &c., and everything passed off very pleasantly. A band of music were in attendance, which interspersed the exercises with tunes.

We very much doubt if the same number of white people could assemble and maintain throughout, the same good feeling that seemed to pervade the whole assembly last evening. We see it stated that "short sleeves" for ladies dresses are becoming quite fashionable again. We like to look at a round, plump, and fair arm, but where the lady has not such, we would advise her not to conform to the fashion.

"Every one for their taste," as the woman said when she kissed the cow; and so we say. If any one wants to pet rattle snakes and wild cats, they are welcome to, but it is as much as we can do to stand our hands with black snakes and domestic cats. A rattle snake and wild cat were landed here from the Massachusetts yesterday morning, pets of a gentleman who is stopping in town. There is no accounting for tastes.

"Sparkling and bright
Is the liquid light"
and so is Young's soda water as it flows from his fountain. Try it.

The following wonderful discovery has been furnished us for publication, and we give it for the benefit of the curious. The work on the stone spoke of below must have cost somebody considerable pains, but we suppose who ever cut it would be satisfied with knowing that he had humbugged some of the "knowing ones."

CURIOSITY.
A gentleman who was perambulating a few days ago along the shore extending south from the east end of the beach, picked up a stone of hard texture, divided into eight compartments by parallel lines of quartz, about the 20th of an inch in breadth extending through the stone, which is in an oval form, about half an inch in thickness, rounded at the edges, as if washed in that form in the sea. On one edge of the stone is the figure of an eagle with its wings extended on either side over the several compartments into which the stone is divided by the line of quartz; on which is the following political, historical, and prophetic engravings in Roman capitals.

CANADA

This stone will be left for a few days at the office of the United States Hotel, where it may be seen; and afterwards at the Beach Cottage.

DAGUERREOTYPES.—That this is a wonderful invention, all are well aware; but all are not equally well aware of the high degree of perfection to which this important art is capable of being brought, in the hands of a skillful artist, such as one as my friend Manchester, for instance; who has not only a theoretical but a practical knowledge of the business, having been engaged in it nearly six years. Reader, have you ever visited his rooms in Vose's Washington House, at the head of Bath street, if you have not I would advise you to do so, and if you are a lover of the beautiful, you will find much to admire. His pictures are of the first class, and appear to be the studied work of an artist, with easy and graceful positions, and are so finely shaded, giving every lineament of the face and every fold of the dress so correctly that you would almost suppose yourself looking upon the originals. I understand that Mr. Manchester has rooms also at Providence, where he soon intends to return; this being the case I would advise my Newport friends, and those visiting here, who have hitherto neglected a thing so important, to make him an early call, as I am sure they will never have a better opportunity of securing fine Daguerreotypes of those who are near and dear to them. Children, your parents cannot always be with you, but their likenesses you may ever retain, if you do not value a few paltry shillings more. If parents had good miniatures of their families, either single or in groups, I am sure they would not part with them for ten times what it costs to procure them, then delay not for to-day is yours, but to-morrow next week, or next year, may be too late.

A. B. C.
We are indebted to Mr. A. J. Potter, of Boston, for a bounteous supply of Boston papers delivered us yesterday noon, for which he will accept our thanks.

The French steamer Philadelphia, which is to run in connection with the Union, arrived in New York on Monday evening, seventeen days from Cherbourg. News of a later date than that which she brings had previously been received.

CHINESE YAKKEEM.—We find the following information as given by the Chairman of the East India Association, when examined by a Special Committee of the House of Commons: "The whole of the supply of tea for the European market is a manufactured article. There is not a pound of tea which comes to this country from China, which has not undergone a coloring process. Tea, which we call green here, is colored green, and might as well be colored yellow or blue."

The Washington writer for the Journal of Commerce says no despatches have been received from Gen. Scott or Mr. Trist since June 4th.

DEFINITION OF A KISS.—A kiss is thus defined in a love-letter written in the year 1679, and translated from the German:—"What is a kiss? A kiss is, as it were, a seal, expressing our sincere attachment—the pledge of future union—a dumb, but at the same time, audible language of a loving heart—a present, which, at the time that it is given, is taking from us the impression on an ivory coral press—a crimson balsam for a love-wounded heart—a sweet bite of the lip—an affectionate pinching of the mouth—a delicious dish which is eaten with scarlet spoons—a sweetmeat which does not satisfy our hunger—a fruit which is planted and gathered at the same time—the quickest exchange of questions and answers of two lovers—the fourth degree of love."

Dr. F. Brown.—Dear Sir—It affords me great pleasure to be able to bear testimony to the valuable properties of your Sarsaparilla and Tomato Bitters. You probably remember the situation I was in when I commenced using them by the advice of my friends; the suffering which I have borne for a long time from the effects of a most terrible humor is almost indescribable; it covered my chest and arms, breaking out at times in quite large sores. Medicine after medicine did I try, without the least relief, and I gave up ever expecting to be cured; but at last I was persuaded to make use of your Sarsaparilla and Tomato Bitters; but I must say I commenced with great reluctance, thinking it would eventually fail to relieve me, as all other medicines had done. But how happily have I been disappointed. It has entirely cured me. Nothing that I do affords me more pleasure than recommending your Bitters to persons similarly afflicted, and I do most earnestly recommend all to try them before they give up, supposing there is no relief. I now value them so highly I keep them in the house, and use them in my family, as I consider them the best, pleasantest, and most thorough medicine now in use, removing all impurities, carrying off all bile, without weakening the system, or being obliged to change your diet.

After showing this to any one, if they are not perfectly satisfied, ask them to call on me, and I will explain my case more fully, which I will afford me great pleasure to do.

JONES SOAP.
Ladies in the country and watering places. See how the sun has burnt your faces! Look at your necks—how yellow, dark with tan; Why, 'twill repulse the love of any man! These freckles, too, you know they'd quickly fly if Jones's Soap you'd use; come once—do try—It costs but fifty cents, and I am told It's worth, aye, doubly worth its weight in gold.

Persons who have had no faith in it, have been astounded at the wonderful effect of Jones'—that is, the genuine Jones' Soap—in beautifying the skin. For sale by Dr. R. J. Taylor.

Radway's Chinese Medicated Soap is superior to all imported French, Berlin, and other Soaps. Tan, sunburn, pimples, blotches, pustules, ring-worm, salt rheum, erysipelas, rash, scurvy, the bites and stings of mosquitoes, rough and discolored skin, pale and sickly complexion all yield to the curative propensities and beneficial influence of this valuable and delicious emollient. In fact, be the complexion ever so disfigured, or the skin discolored or diseased, Radway's truly excellent medicated soap never fails in rendering the skin soft, smooth, fair, sweet, clear and healthy. Many persons suffer great annoyance during the summer season from the troublesome insects mosquitoes. Those persons, subject to those annoyances, by applying Radway's soap to such parts of the countenance as is bitten, it will instantly alleviate the pain, subside the irritation and instantly remove every vestige of blemish. For general toilet soap it is unequalled, it proves an agreeable perfume, and is entirely free from all poisonous admixtures, or irritating ingredients. It is much cheaper than any other medicated soap, and is acknowledged by thousands to be superior to all others ever offered to the public. No Chinese Medicated Soap is genuine unless signed, R. G. Radway. Be sure to ask for Radway's Soap, and take no other. Sold for 12 1/2 cents per cake, by Dr. R. J. Taylor.

Dear Sir,—I take pleasure in communicating to you the following account, and the public generally, the astonishing effect your truly wonderful medicine has had upon me. I have enjoyed perfect health for four or five years. Physicians told me that my liver was diseased, and that I might someday die with consumption. Last September, 1845, I took a slight cold, which produced a hacking cough; this continued until February, 1845, when I added another cold; my cough increased, I soon lost my appetite, and my strength failed. For six weeks I could not lie upon one side; I sweat very much nights, raised considerable blood during the winter, and could not speak aloud for two weeks. With all these bad symptoms, I had very severe pain in my side and between my shoulders; great debility followed. I was confined to my room about eight weeks. I had buried a sister and brother, both died with Consumption. I expected to die myself; my friends also despaired of my life. At this time an uncle, who had been benefited himself, advised me to take

WISTAR'S BALM OF WILD CHERRY.
I accordingly procured a bottle, took it, and felt some better; obtained another, and a third; then I ceased to bleed and my cough was much better; but my disease was so deeply rooted, I was obliged to continue taking the Balm until I had taken seven bottles. I can honestly and truly say, I believe Dr. Wistar's Balm of Wild Cherry saved my life.

MRS. MARY B. GOULD.
We are personally acquainted with Mrs. Gould—assisted in taking care of her during her sickness, believe and know the above statement to be true.

Dr. Banning's Patent Holy Laze, For Weakness of the Body.

The following letter is submitted to a discerning public, and the proprietor is enabled to refer to many individuals—whose testimony will satisfy the most incredulous. Be particular and get Banning's Laze, and be put off with nothing else.

WARREN, August 22, 1846.

Dr. Boardman.—Dear Sir—Now being about leaving for home, I am able to give thus far a favorable account of the Laze which I have worn only four days. For more than four years I have suffered greatly from dyspepsia, that scourge of our race. My food has always been so troublesome that my stomach would reject it almost every day—my bowels always constipated—my head always feeling heavy and unpleasant, and my spirits greatly depressed. I was unfitted for any regular business, and till I saw you, I had given up the hope of ever being better. I had consulted many physicians and in Boston, those the most celebrated, and spent nearly all the money I could earn, upon them and medicines. Since I have worn the Laze, all these symptoms have in a great degree vanished, and

now, it seems to me, I shall be well again. I find my body regaining its erect position—the splitting upon my back is pretty much over, my spirits and energy are returning, and I feel like a new man.

J. G. C. HAZARD, 87 Thames-st.

JULES HAUDEL'S celebrated **PERSIAN**, or **CHINESE POWDER**, which is unequalled for the nursery, for restoring, beautifying, preserving the complexion, rendering the skin delicately white, smooth and soft, preventing cutaneous eruptions, chapping and obviating too copious perspiration. Travellers and residents in warm climates will highly appreciate this grateful appendage to the toilet.

How much the beauty of a Sylph-like form is enhanced by a clear and brilliant complexion, is only known to those who are suffering from freckles, pimples, blotches, morphea, and other disfigurements of the skin, occasioned by the use of powder decorated with sweet names, such as Lilly White, Pearl Powder, &c., too often made of deleterious substance. To those we would say make a trial of this Cosmetic, and your complexion will be rendered beautifully clear, fair and blooming. Ladies are Cautioned

AGAINST using Common Prepared Chalk. They are not aware how frightfully injurious it is to the skin, how coarse, how rough, how yellow, and unhealthy the skin appears after using prepared chalk! Besides it is injurious, containing a large quantity of lead!

We have prepared a beautiful vegetable article, which we call **JONES' SPANISH LILY WHITE**. It is perfectly innocent, being purified of all deleterious qualities; and it imparts to the skin a natural, healthy, alabaster, clear, living white, at the same time acting as a cosmetic on the skin, making it soft and smooth.

Dr. James Anderson, Practical Chemist of Massachusetts says: "After analyzing Jones' Spanish Lily White, I find it possesses the most beautiful and natural, and at the same time innocent white I ever saw. I certainly can conscientiously recommend its use to all whose skin requires beautifying."

Price 25 cents a box.

The American Improved Hygienic Vegetable Medicine.

SAFE, CHEAP AND EFFECTIVE.
This medicine makes no pretensions to magical powers, the raising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple aim to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties. During the last twenty years it has worked its way into extensive use, *entirely upon its own merits*, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approval in many others, (for periods varying from months to fifteen or sixteen years), as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.

Bogle's Hyperion Fluid; Or Vegetable Hair Composition.

THE subscriber has been induced to bring this article before the public, at the request of his numerous customers, among whom are physicians and citizens of the first respectability, who have adopted its use in their families, and wish others to participate in its advantages.

The Hyperion is composed of vegetable ingredients, the secret of compounding and blending which is known solely to the subscriber. It is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture never before attained, yet free of animal grease or essential oils. It clears the pores of the skin, causes a healthy action in the blood vessels, nerves, &c., which feed the hair, thereby preventing **BALDNESS AND GREY HAIR**.

It entirely frees the skin from Scurf, Dandruff, and other cutaneous diseases, disposes the hair to curl, and changes the hardest hair into the most soft, glossy, and healthy state, also imparts to it a darker color, and the free use of it, both on the skin and hair, in a most healthy and luxuriant state until the latest period of life.

Ladies will find the Hyperion a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the fluid, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation of a good head of hair.

Manufactured and for sale by **WM. BOGLE**, 228 Washington, corner of Summer street, Boston. Sold in Newport by **R. J. TAYLOR**.

TO THE AFFLICTED,
DR. BANNING'S PATENT LACE!
An Immediate Relief to Incipient Consumption, the Bronchitis of Public Speakers, Palpitation of the Heart, Dyspepsia, Spinal Weakness, Piles, Protrusion, and Diseases of Women, without Medicines.

THIS instrument has been examined by **Drs. Mott, Rodgers, Francis, and Griseom** of New York, the Faculty of Pittsburgh, Hartford, New Haven and Middletown, and has obtained for itself their favorable testimony. The following will show what kind of testimony might be produced in many cases:
Middletown, June 25th, 1843.

Dr. Boardman,
Sir—In answer to your inquiry respecting my case, I will merely say, that I have been sick since I strained my breast and loins in May, 1836, from that time continued to grow worse, when in the fall of '39, I abandoned business, and have not done any thing since. I suppose from all I could learn about my case—frequently raising blood, coughing very hard and expectorating profusely, deriving no benefit from my physicians, and all medicines recommended to me, that my case was hopeless. Last winter my brother told me he had heard a good account of Dr. Banning's Lace in such cases, and was anxious that I should try it; accordingly I procured one from you, and since I began to wear it, my breathing, which was very short and laborious, has become easy and natural; the pain and fluttering or palpitation of the heart has subsided; cough and expectoration greatly lessened, my limbs which were exceedingly painful have become useful, so that I can walk comfortably. I am able to stave myself with comfort, which for many years I have not been able to do. The piles, which have troubled me for nine years, are nearly eradicated. I work some in the garden, and am able to ride 4 miles at once with pleasure and benefit.
Yours, &c. **WM. BANNING.**
Middletown, June 25, 1843.

Dr. Boardman,

Dear Sir—In answer to your inquiries respecting the effect of Dr. Banning's Lace in the case of my wife, I will state that for twenty years past, she has been afflicted with a complication of complaints to which females are subject. She has tried all the physicians and all the medicines recommended for such complaints, without regard to expense, and found only temporary relief. Her most distressing complaints, palpitation of the heart, oppression and a sense of great weight at the pit of the stomach, prolapsus of the womb, &c., were believed after wearing the lace two hours, and she has continued to improve daily. With this view of the case I cannot use language strong enough to convey my approval of the instrument.
aug. 29th.

Dr. Boardman,—Dear Sir—I now take my pen to inform you that my wife's health has improved very fast for the last two weeks from wearing one of your Laces. She has been out of health about two years and has worn a different Supporter from yours, which had only two pads. She received some benefit from that—but it would not produce a cure. But now I can say with pleasure that she is as smart as any of the young girls in the neighborhood. She can now run up and down stairs as fast as I can, and I feel so well pleased with it that I hardly know how or what to write. But one thing I do now, that she has been under the care of seven Doctors in one year—and wearing your Lace two weeks has or will do the cure in a very short time. I want to write more, but I have no time. I am truly, your friend and well wisher.

MR. ABRAHAM VANDERBEEK, of 98 Avenue D., New York, certifies that his head was entirely bald on the top, and by the use of two 3s. bottles of Jones' Coral Hair Restorative, he has a good crop of hair, and will soon have it long and thick.

Mr. William Jackson, of 80 Liberty street, Pittsburgh, Pa., certifies: On the 3d of February, 1847, that Mr. Thomas Jackson's head, on the top, was entirely bald for 15 years, and that by using two 3s. bottles of Jones' Coral Hair Restorative, the hair is growing fast and thick, and will soon be entirely restored.

Gray Heads! Gray Heads! Read—I hereby certify that my hair was turning gray, and that since I have used Jones' Coral Hair Restorative, it has entirely ceased falling—is growing fast, and has a fine dark look. Before I used Jones' Coral Hair Restorative, I combed out handfuls of hair daily. **WM. TOMPKINS**, 92 King-st., N. Y.

Mr. Power, a grocer of Fulton-st., had his hair choked up with dandruff, and Jones' Hair Restorative entirely cured it.

Do you want to dress, beautify, and make your hair soft and fine? Read—**I**, Henry E. Cullen, late barber on board the steamboat South America, do certify that Jones' Coral Hair Restorative is the best article I ever used for dressing, softening, cleansing and keeping the hair a long time in order; all my customers preferred it to anything else.

TO THE LADIES IN PARTICULAR.

MY DEPILATORY POWDER has been found highly beneficial and of great use to ladies who have been afflicted with superfluous hair, principally when its growth has been confined to the upper lip and side of the face, giving a masculine turn to the whole features. When used with proper care, and according to the directions, it will be found to be a great addition to the toilet, as the use of any sharp instrument is entirely avoided, and the hair is removed in five or ten minutes after its application.

This composition is infallible, and warranted to remove superfluous hair. After numerous trials, I have received certificates of success which cannot be contested. For sale, wholesale and retail, at

CHEMICAL RESULT—A WONDER.
MY celebrated **VEGETABLE LIQUID HAIR DYE**, to enable persons to dye instantaneously their hair, without the least inconvenience. For changing red or gray Hair, Whiskers, Eyebrows, &c., to a Brown, Black, or Chestnut Color. The slightest evil consequences need not be feared from its use—it is altogether harmless. This composition is the only one sanctioned by the science of Chemistry, to dye, in an indelebile manner, the various gradations of colors, without danger or inconvenience, and has justified the liberal patronage and unlimited confidence of the public. If black is required, ask for box marked N, if brown, box marked B.

MOTHER'S RELIEF.

It is now about ten years since this medicine has been introduced to the public, and it stands unrivalled in its effects, bearing the test of the severe scrutiny of all classes, both friendly and unfriendly. It is but for one purpose—for the use of Mothers who have to pass through a sea of affliction in giving birth to mankind, not to be described. It is to you we make an appeal. It is for your especial and general good that you should make use of one bottle of the **MOTHER'S RELIEF** before confinement. Then you can approach the parturient chamber without feeling as if you were going to the chamber of death. You may rest assured it will still all ferberile and nervous affection. It soothes and shields from irritation and by its peculiar properties it destroys the cause of hemorrhage or inflammation that so often attend and follow the hour of parturition. It causes sweet and natural rest, and at last facilitates the birth, so that Mothers have not to pass through such excruciating pain and distress. The Mother's Relief may be depended upon in all cases of threatening abortion where it is possible to be prevented in cases of Spasms, &c. causing frequent alarm, from two to three doses will give immediate relief.

As the subject is one that cannot with propriety be fully discussed in this public manner, we invite all who feel interested to call on our agents (most of the respectable Druggists in the United States,) or on the manufacturer, and they will be furnished with a pamphlet in which they will find all the facts to form a correct opinion of its merits, (and also the opinions of many physicians of eminence, and of persons who have become acquainted with its beneficial effects.

CAUTION TO PURCHASERS.—Ask for **HARTHOLOK'S** Mother's Relief. None is genuine unless our signatures are found within the wreath of the direction that is pasted on the bottle, signed with our own hand, and over the neck of the bottle is a facsimile of our own hand writing also. By attending to the above directions, no one need be imposed upon. All orders will be promptly attended to.

Miracle.

ON the 4th of August, in the year 1843, a singular scene occurred in the Royal Scientific Institution of France. The aged, white-headed President, his head bare, his arms outstretched, his face radiant with smiles, (for science was triumphant,) and his voice with gratulatory tone, delivered the following report:

"We are astonished at this singular preparation. Where indeed will science stop! Here we have a preparation made in the form of a beautiful piece of soap, which we know by actual practice, to cure every cutaneous eruption, every disfigurement, and even discolored skin! Where will its magic and singular power cease? The Negro, the Creole, the Yellow Race of the East, and the Red Man of the far West, are alike under the influence of its extraordinary powers of clearing yellow or discolored skin, and making it white and beautiful, and of changing the color of dark, or black, or brown skin." (Here several persons were brought forward by the President, who had used it, in proof of his assertion.)

There are probably few persons of intelligence, who, after reading the above, will doubt the qualities of **JONES' ITALIAN CHEMICAL SOAP**, in curing Pimples, Blotches, Salt Rheum, Scurf, Erysipelas, Sore Heads, Old Sores, Eczema, and Barber's Itch, Chapped and Tender Flesh, Freckles, Tans, Sunburn, and changing dark sunburn or yellow skin to a pure, clear white, as smooth and soft as an Infant's, and in fact every kind of eruption and disfigurement. Read these certificates:

[From the N. O. Sentinel, Oct., 1841.]
One of our subscribers, **Mr. H. Leonard**, informs us that he has been cured of old, scaly Salt Rheum, of eighteen years standing, on his head, fingers and hands, by a cake of an article much advertised lately—we speak of Jones' Italian Chemical Soap. He also informs us that he has tried its effects on his female slave, **Rose**, much marked with sun spots, and he found in two weeks her skin much clearer and whiter.

James Eklum, a painter in Jersey City, was cured of carbuncles and pimples, which he was afflicted with for many years, by part of a cake of Jones' Italian Chemical Soap.

Persons in purchasing this must always ask for Jones' Italian Chemical Soap; and perhaps, as many who have been cheated with counterfeits, we say to such, try this once—you will not regret it; but always see that the name of **T. JONES** is on the wrapper. For sale in Newport by

READER! READER!
If you are afflicted with *Bronchitis, Asthma, Obstruction of common Coughs and Colds, Spitting of Blood, Bleeding of the Lungs, Whooping cough, croup, difficulty of breathing, sore throat, hoarseness, first stages of consumption, and all other Pulmonary or Lung Complaints, try*

DOCT. EMANUEL'S BALSAMIC LUNG AND COUGH JELLY.

THE materials of this Jelly are purely vegetable and balsamic, and are the invention of an eminent physician, from whom the proprietor has purchased the recipe. It is certainly worth its weight in gold, but is put at a price to be within the reach of rich and poor.

Names and residences of persons residing in the city of New York, who have been cured or benefited by Dr. Emanuel's Balsamic Cough and Lung Jelly, when it was prepared in another form:

Mr. Hiram Aments, 113 William-st., N. Y., had for some time, a dreadful pain in his side and chest, with a hacking cough, and shortness or difficulty of breath. He used part of a bottle of Dr. Emanuel's Balsamic Lung and Cough Jelly, which perfectly cured him.

Mrs. Morgan, Front-st., Brooklyn, had a very obstinate cough and cold. She tried every other remedy in vain, and Dr. Emanuel's Balsamic Lung and Cough Jelly entirely cured her.

Reader, reader, let the glad voices and grateful hearts of these respectable citizens of New York, appeal to your hearts and understandings, if you are afflicted with any pulmonary complaint, cough, cold, &c.

Mr. L. W. Conklin, 103 Eldridge-st.
Mr. Alonzo Brown, 73 Reade-st.
Mrs. Morgan, 162 Front-st., Brooklyn.
Orange County, April 19th, 1846.

DR. EMANUEL.

Dear Sir—You may perhaps think my statement almost incredible. My reason for fearing so is the fact of your never recommending your Jelly for the cure of confirmed consumption, but only in its primary or first stages. I have every reason to believe that I was in its last stage; my physician told me so; my friends told me so; as well did my symptoms, for they were truly alarming; and I felt fully convinced, that unless relief was obtained, I must soon be consigned to the narrow confines of the silent grave. But by the timely use of your remedy, I still live, and again enjoy my former good health. I had, indeed, dear sir, all the alarming symptoms you speak of as forming consumption in its worst stage; but by the use of your Jelly, I again say, I am cured.

Yours, dear sir, with great sincerity,
ISAAC J. BEED.

And now, reader, having given you a plain statement, let me conjure you to pause, ere it is too late; try this Balsamic Lung Jelly—try it. I have put its price to you as low as I can afford; if you use it, and succeed in curing yourself, I shall have the gratification of having rescued another from consumption; and I hope, in return, that you will not withhold from me your name, and a statement of your cure.

Dr. Emanuel's Balsamic Lung and Cough Jelly, is sold by the Agent,
R. J. TAYLOR.
Price fifty cents a bottle, or larger sizes one dollar.

MY **EAU LUSTRAL HAIR RESTORATIVE**.

This universally approved and admired article, free from ardent spirits, pungent essential oils, and other destructive materials, cleans the hair expeditiously, renders it beautifully bright, and imparts to it the delicate fragrance of the flowers. Hair washed with this Extract soon becomes pleasingly soft and luxuriant in its growth, and it will positively bring in new hair on bald heads by its use; and hair that has been made harsh, and is turning gray or falling out, by the use of spirit or other improper preparations, will soon be restored to its natural color and brilliancy, by a few applications of the Eau Lustral.

It is a preservative against baldness, and an infallible cure in all affections of the skin on the head, as dandruff, and for preventing the falling off of the hair and turning gray.

Evidence.—Nature is an inexhaustible mine, in which experience and study will always find room to excavate; it is that source alone which produces all that man calls invention, and which he would do better, perhaps, to name adaptation.

Coggeshall & Bliss' Patent Cooking Range.

THE subscribers have just taken out letters patent for a new and beautiful cooking Range, to which they invite the attention of the public.

This Range may be set in the ordinary fire place and by a simple, though effectual apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape through the chimney.

Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.

This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it being constructed as it is, the Boilers are brought in close proximity with the fire, and it consequently boils much sooner, and with a smaller amount of fuel, than the old fashioned Ranges, or cook stoves.

It contains five boilers, four of which may be converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains an Oven 12 inches wide by 21 deep, which cannot be surpassed for baking.

The subscribers have one of their Ranges in operation at their store, where the public are invited to call and examine it, and if they will, they must at once discover its utility. They also keep constantly on hand all kinds of Parlor, Office, and Cook Stoves, Tin Ware, &c., &c.
